

A photograph of two cheetahs, an adult and a cub, resting on a dark, textured rock in the foreground. The adult cheetah is on the right, looking towards the camera with a calm expression. The cub is on the left, also looking towards the camera. They are both covered in their characteristic spotted fur. The background is a soft-focus savanna landscape with green bushes and trees under a bright, hazy sky. The overall tone is warm and natural.

Amboseli National Park

You've been dreaming of your safari for so long and now it's finally about to begin. You'll meet your guide who will tell you everything you need to know to get your safari started. We're as excited as you are to get your trip underway.

Amboseli may be smaller than many other Kenyan parks, but it packs a lot into a very small space. For starters, the views here are astonishing because Africa's highest mountain, Mt Kilimanjaro (5895m), looms over the park to the south. Best of all, the mountain provides a backdrop to many fantastic wildlife sightings that almost always include elephants with big tusks, as well as lions, cheetahs, hyenas, zebras, buffaloes, giraffes, wildebeests and gazelles. Birders can also look for the park's 420 different recorded species.
