Samburu is well-known for mammals from Kenya's north that can be hard to see elsewhere: gerenuk, Grevy's zebra, beisa oryx and reticulated giraffe. Birders will love the chance to see nearly 400 different species.

Samburu National Reserve

Aberdare National Park

Expect high-altitude moorlands, dense forests and spectacular waterfalls when you visit Aberdare National Park with us. Because of the dense vegetation, wildlife numbers are lower here, but the rewards include elephants, waterbucks, bushbucks, buffaloes, hyenas, and, if you're extremely lucky, black rhinos, black leopards and the much-prized bongo antelope. Mau Mau rebels hid in the forest here during Kenya's struggle for independence.

Accommodation | Day 3

Treetops Lodge

Lodge | Inside Aberdare National Park

In Aberdare National Park you'll be staying at Treetops Lodge, which is where Britain's Queen Elizabeth II was staying in 1952 when she learned that her father had passed away and she was to become queen. The lodge is even older than that, dating back to 1932. Watch from the viewing deck as elephants and other wildlife come to the waterhole, while the restaurant and many rooms also have views.

Visit the Northern White Rhinos

Lake Nakuru National Park

You'll be visiting Lake Nakuru National Park, and it's a brilliant park to visit. There are so many highlights to look forward to. When it comes to wildlife, there are tree-climbing lions, endangered Rothschild's giraffes, and flamingos in varying numbers on the lake. This is also one of the best parks in Kenya for seeing both black and white rhinos. It's a beautiful park as well, with amazing views from the Out of Africa Lookout (some scenes from the 1985 film of the same name were filmed here), as well as waterfalls, acacia woodlands and pretty lake panoramas.

Evening Game Drive, Lake Nakuru National Park

Going on an evening game drive is one of the highlights of any safari. This is when temperatures cool, the light becomes softer and the wildlife begins to get active. Not only will you be out when the light is best for taking photos, but it's also one of the best times of day for seeing the animals.

And every time the clouds clear on the mountain's summit, you'll want to line up a photo of these animals with Mt Kilimanjaro in the background.
